PROJECTS

- Pet adoption

Integrated database-driven features for secure user authentication, pet search, and adoption request handling, enhancing efficiency and user experience.

Tech Stack : HTML, CSS, Java Script, Python Flask

- Sign recognition model

Implemented a Sign Recognition System using Machine Learning algorithms to classify hand gestures with high accuracy.

Tech Stack : using matplotlib, opencv ,numpy , pandas

SKILLS

- Frontend : HTML,CSS, JavaScript
- Databases : MySQL , MongoDB
- Backend : Flask, Node js
- Programming Languages : Python ,C++,C, Java
- Good Communication Skills

EDUCATION

2023 - 2027

The National Institute of Engineering

- Bachelor of Engineering in Information Science
- CGPA : 8.0

2021 - 2023

Excellent PU College

- PCMB
- Percentage - 91%

LANGUAGES

- English
- Kannada
- Hindi

ACHIEVEMENTS

- Solved 50+ problems in leetcode
- Completed two projects individually

CERTIFICATION

- Introduction to DSA
- Introduction to Machine Learning by IBM
