Objective

Motivated mechanical engineering graduate seeking an entry-level engineering role to apply design, analysis, and problem-solving skills in a collaborative environment.

Education

Bachelor of Engineering in Mechanical Engineering
State University of Technology, Anytown, USA — Graduated May 2024
Relevant Coursework: Thermodynamics, Fluid Mechanics, CAD/CAM, Materials Science

Skills

CAD Tools: AutoCAD, SolidWorks, CATIA
Programming: Python, MATLAB
Core: Finite Element Analysis, Heat Transfer, Project Management
Soft Skills: Team Collaboration, Technical Communication, Problem Solving

Projects

Autonomous Delivery Robot (Senior Design Project)

- Designed and built a prototype delivery robot using LiDAR sensors and Raspberry Pi.
- Achieved autonomous navigation with 95% route accuracy.

3D-Printed Heat Exchanger

- Modeled and tested a compact heat exchanger to optimize thermal efficiency.
- Improved heat transfer rate by 18% compared to baseline design.

Experience

Mechanical Engineering Intern — GreenTech Manufacturing, Chicago, IL

June 2023 – August 2023

- Assisted in redesigning HVAC components, reducing production cost by 12%.
- Conducted performance tests and compiled detailed reports for senior engineers.

Certifications

Certified SolidWorks Professional (CSWP), 2023
OSHA Safety Certification, 2023

Activities & Achievements

Winner, National Robotics Challenge 2023

Member, American Society of Mechanical Engineers (ASME)
