SKILLS

- Language: C ,Java, Python, JavaScript
- Frontend: HTML, CSS
- Backend: Node js, Express js
- Database: SQL,MongoDB
- Version Control / Collaboration: Git, GitHub
- Course Work: Database Management System, Operating System, OOPs

PROJECT

AI-Powered Mock Interview Platform:

- Developed a full-stack application using React, Flask, and MySQL to provide AI-driven interview coaching.
- Built a custom resume parser with spaCy and PyMuPDF to extract key skills, projects, and experience from user-uploaded PDFs.
- Integrated the Google Gemini API to dynamically generate questions tailored to both the user's resume and a selected job role.
- Engineered a feedback system that analyzes user answers to provide detailed scores on technical and communication skills.
- Created a user dashboard with Recharts to visualize performance history and track progress over time.

ACHIEVEMENTS

- solved 300+ problems on competitive coding platforms(LeetCode , GeeksforGeeks) with focus on Data Structure and Algorithms

LANGUAGES

- English
- Kannada
- Hindi
